# CANINE TRAINING SYSTEMS

---

## Who We Are

Canine Training Systems® is a production company of trainers and creative artists with passion, that produce video titles based in the science behind how animals learn. We believe there is "A BETTER WAY"™! In providing the most up-to-date scientific techniques in animal related videos, books and training aids, Canine Training Systems® has earned a worldwide reputation as the leader in training videos for sport, service and companion dogs. We work with the EXPERTS in training to bring you the highest quality, most current training methodologies available for training your canine partner.

## How to Learn More

In addition to our digital catalog and secure e-commerce website where you'll find new releases, bundled specials, video samples, product reviews and expert bios, we encourage you to Follow Us on Facebook and learn more about how we do what we do, why we're the industry leader, who we've worked with and what's coming up! In addition, you may pick up some cool, free swag!

## Multi-Disc Discount

Our desire is that you purchase titles that benefit you and your canine partner. Our ongoing multi-product discount is designed with this end in mind. When 3 or more of our qualifying in-house titles (denoted with our logo), are purchased in one fell swoop, you will save \$10.00 per title. Many bundled specials already reflect deeper discounts and don't apply. We encourage you to pick your own titles and create a bundled solution that fits your needs. If you need a recommendation or help, drop us a line! Read more [here](#).

## Award Winning Productions

We pride ourselves on the fact that, not only are our titles the most content-rich available, they are National and International Award Winners as well! Our titles have received tremendous recognition for instructional content, production values and technical quality. We have won lots of heavy statues, glossy medallions, shiny plaques and fancy acrylic widgets but we consider your repeat business our highest accolade. To read more about our Award Winners, please [visit our website](#).

## Video

All titles are currently available on DVD and at their time of programming are tested on a wide range of available hardware and software platforms for playability. Every one of our DVD titles are professionally authored and feature chapter marking so you can select content at any point in a program to view or review.

## Terms of Use, Disclaimer and Privacy Policy

We take your privacy and security seriously, which is why transactions on our site are protected with up to 256-bit Secure Sockets Layer encryption. To read about our Terms of Use, how we handle information and the steps we take to ensure security, please [visit our website](#).

## Refunds and Returns

Due to the obvious consumable nature of video and print media, refunds are not possible for products that have been opened, viewed or are in less than new condition. Video products that are unopened and in new condition can be returned within 15 days of receipt. All returns may be subject to a 15% restocking fee. Because of the delicate nature of optical discs, we urge you to provide adequate care and protection to your products. If a title is damaged or altered, replacement may not be possible. We request that all claims for defective titles be made within 15 business days of receipt by the original purchaser to be considered for replacement. Proof of purchase may be required.

## Payment and Shipping

Orders must be prepaid by credit card, check or wire transfer. We accept Government and Law Enforcement purchase orders when ordered on official letterhead. Missouri residents must pay 5.35% sales tax.

We ship using a variety of shippers and fee structures. Because we ship combinations of videos, books, training products and supplies, shipping costs through our secure site are based on weight, dimension and method used. We ship using the most economical, efficient method, unless a specific request is made. Should you have special requests when ordering, please let us know in the "Special Instructions" window in our secure shopping cart or contact us for pricing.

International Shipping is based on real-time information from the shippers we use and does not include import duties, custom fees or tariffs specific to the country of destination. We won't be responsible for specific charges incurred at destination and advise that you verify what charges may be incurred prior to placing your order.

## The Culture Clash

by Jean Donaldson, 222 pages, 2005, Second Edition, paperback.

The Culture Clash is special! It is utterly unique, fascinating to the extreme, and literally overflowing with information that is so new it virtually redefines state of the art in dog behavior and training. Generations of dogs have been labeled training-lemons for requiring actual motivation when all along they were perfectly normal. All too often, when the dog's way of life conflicts with human rules and standards, many dogs are discarded and summarily put to death. That's quite the Culture Clash.

## Dog InSight

by Pamela Reid, PhD, CAAB, 224 pages, 2012, paperback.

Trainers and animal behaviorists around the globe consider Pam Reid's Excel-erated Learning one of the most important and influential books ever written in the field of dog behavior. Although that's a hard act to follow, Dog InSight, Pam's second book, does not disappoint. In over forty fascinating essays, Pam explores a wide range of topics, including learning theory, training techniques and behavior problems.

## Excel-erated Learning

by Dr. Pamela Reid, 174 pages, 1996, paperback.

Great news for those of you who have wanted to read a book that explains animal learning in a manner that is easily understood yet entertaining. Agility enthusiast, obedience competitor and psychologist, Dr. Pamela Reid introduces you to cutting-edge scientific techniques in dog training, including autoshaping retrieval and errorless discrimination learning for teaching scent articles and directed jumping. The combination of relaxed writing style and numerous examples that relate to dog training makes learning theory actually fun to learn.

## Dog Aggression- Biting

90 minutes, NTSC DVD- English, 1998.

Veterinarian and animal behaviorist Dr. Ian Dunbar addresses the two most worrisome behavior problems any dog owner can face- dogs that bite and dogs that fight. Dr. Dunbar offers a thoughtful analysis of why dogs bite, outlining numerous common-sense preventative measures and a variety of practical remedial training techniques. Topics include: The relative influence of nature and nurture on the development of canine aggression. But most important: a detailed program of simple and effective behavior modification and temperament training techniques to prevent dog bites.

## Dog Aggression- Fighting

60 minutes, NTSC DVD- English, 1998.

Dr. Dunbar offers a thoughtful analysis of why dogs fight, outlining numerous common-sense preventative measures and a variety of practical remedial training techniques. Dr. Dunbar's goal is to make every dog a friendly dog. Topics include: The causes of dog-to-dog aggression in the context of pack hierarchy. How to assess whether a dog has a serious and dangerous fighting problem. How castration defuses aggressive encounters. How to use precise timing, praise and reprimands to reduce and phase out aggression and build up a dog's confidence and social contact.

## The Culture Clash

by Jean Donaldson, 222 pages, 2005, Second Edition, paperback.

The Culture Clash is special! It is utterly unique, fascinating to the extreme, and literally overflowing with information that is so new it virtually redefines state of the art in dog behavior and training. Generations of dogs have been labeled training-lemons for requiring actual motivation when all along they were perfectly normal. All too often, when the dog's way of life conflicts with human rules and standards, many dogs are discarded and summarily put to death. That's quite the Culture Clash.

by Canine Training Systems®

This lead is excellent. It's 6 feet long with a floating ring between the handle and the swivel at the half way point. The handle incorporates a brass snap that can be linked to this floating ring around a tree or post to act as a tie out when afield. The bottom half incorporates a martingale style collar with a brass stop that keeps the collar end from going slack and opening so that the dog can't back out. The collar rings are brass flat sided rings that keep the collar flat to the dog's neck unlike cheaper collars that use round rings. All stitched areas are tapered, sewn and riveted for durability. All hardware is solid brass. This lead will last.

by Jessica Adams and Andrew Miller, 184 pages, 2012, eBook.

This eBook is in FULL color just like the print version.

Dogs are dogs and wolves are wolves. Except when they aren't! Most scientists now agree that the dog is a subspecies of wolf—*Canis lupus familiaris*. And while most wolves look and act differently from most dogs, it can be very hard to make accurate identifications, especially since wolves and dogs can and do interbreed and certain breeds of dogs look and act a lot like wolves.

## The Push-n-Play Ball

by Jolly Pets

The Push-n-Play™ Ball is a fantastic exercise toy for every dog. We've used these products for nearly 15 years with our Shepherds and terriers. The hard plastic design doesn't allow the dog to get a good hold on the toy and it takes on a life of it's own as it rolls and is pushed about by the dog. The large toy has a plug so that sand or water can be added to build strength and endurance. Note: Only the large toy has a plug. Colors: Red, Purple, Blue

## Sandblast Hose Tug/Retrieve Toy

by Canine Training Systems®

These are AWESOME and we've used them ourselves for years and years. These are perhaps the last tug toy you'll ever buy. Sandblast hose is incredibly durable, easily cleaned (we put ours in the dishwasher) and easy to pack- our dogs love them. They have some heft so they don't bounce and although somewhat flexible, at 10" long they provide excellent rigidity to be used as a tug toy. We offer them in two sizes, sold in pairs, color varies.

## Obedience Without Conflict 3- The Retrieve

with Ivan Balabanov, 72 minutes, NTSC DVD- English. English, German and Spanish subtitles.

Ivan demonstrates this innovative technique for creating a world class retrieve through the isolation of the "hold" behavior. The distinction between holding and gripping is made clear and the topography of the retrieve is discussed and taught step by step. Through discrimination exercises the dog is also taught the cues for jumping and climbing through distraction while building a foundation for fast retrieving through un-conflicted play. This title focuses on isolating speed while teaching correct holding through the use of a Retrieve Dowel.

## The Culture Clash

by Jean Donaldson, 222 pages, 2005, Second Edition, paperback.

The Culture Clash is special! It is utterly unique, fascinating to the extreme, and literally overflowing with information that is so new it virtually redefines state of the art in dog behavior and training. Generations of dogs have been labeled training-lemmons for requiring actual motivation when all along they were perfectly normal. All too often, when the dog's way of life conflicts with human rules and standards, many dogs are discarded and summarily put to death. That's quite the Culture Clash.

## On Target- Training Substance Detector Dogs- Detection 1

with Randy Hare, 70 minutes, NTSC DVD- English.

This practical and thought-provoking video introduces Randy Hare's revolutionary methods for training substance (drug, explosives, accelerants, biologicals) detector dogs. It begins with a critical analysis and review of conventional detector dog training methods, and then presents the core ideas of the Hare Method- The handler is not the teacher, the dog teaches himself, the dog is not just taught what odors and stimuli to respond to; he is also explicitly taught what NOT to respond to, the dog is taught to ignore primary reward (ball) odors and stimuli unless they are encountered in conjunction with target odor. (Please read more on the website!)

## On Target- Training Substance Detector Dogs- Detection 2

with Randy Hare, 77 minutes, NTSC DVD- English.

Video two of this series shows how to use Randy Hare's ground-breaking methods to accomplish the next five learning objectives in the training of substance detector dogs. Once these objectives are achieved, then the student detector dog will have achieved the special attributes of the Hare-trained detector dog: The dog will possess a crystal-clear understanding of his task, and he will display the kind of obedience to odor that makes it virtually impossible to disturb or distract him during search or indication. He will also exhibit an extraordinary degree of independence and self-belief while searching. Finally, the dog will display... (Please read more on the website!)

## On Target- Training Substance Detector Dogs- Detection 1

with Randy Hare, 70 minutes, NTSC DVD- English.

This practical and thought-provoking video introduces Randy Hare's revolutionary methods for training substance (drug, explosives, accelerants, biologicals) detector dogs. It begins with a critical analysis and review of conventional detector dog training methods, and then presents the core ideas of the Hare Method- The handler is not the teacher, the dog teaches himself, the dog is not just taught what odors and stimuli to respond to; he is also explicitly taught what NOT to respond to, the dog is taught to ignore primary reward (ball) odors and stimuli unless they are encountered in conjunction with target odor. Video two of this series shows how to use Randy Hare's ground-breaking methods to accomplish the next five learning objectives in the training of substance detector dogs. Once these objectives are achieved, then the student detector dog will have achieved the special attributes of the Hare-trained detector dog: The dog will possess a crystal-clear understanding of his task, and he will display the kind of obedience to odor that makes it virtually impossible to disturb or distract him during search or indication. He will also exhibit an extraordinary degree of independence and self-belief while searching. Finally, the dog will display... (Please read more on the website!)

## Terrier Field Lead

by *Canine Training Systems®*.

This lead is excellent. It's 6 feet long with a floating ring between the handle and the swivel at the half way point. The handle incorporates a brass snap that can be linked to this floating ring around a tree or post to act as a tie out when afield. The bottom half incorporates a martingale style collar with a brass stop that keeps the collar end from going slack and opening so that the dog can't back out. The collar rings are brass flat sided rings that keep the collar flat to the dog's neck unlike cheaper collars that use round rings. All stitched areas are tapered, sewn and riveted for durability. All hardware is solid brass. This lead will last.

**Price: \$17.95**

## RANDY HARE

[Learn more about Randy here](#)

Randy Hare started a career with dogs in 1984 prior to becoming a law enforcement officer. While most police dog trainers gain their first experience “on-the-job”, Randy realized that in order to truly understand the requirements of the service dog, he needed on the job experience to further his already existing career in dogs- a switch in the realm of service dog trainers. His venture into law enforcement was based STRICTLY in the pursuit of gaining a solid foundation for training the patrol and narcotics detection dog, knowing that being a professional in the dog training field was what he truly wanted.

Through research into techniques of training and the manipulation of drive, temperament and the intelligence of the canine mind, Randy has tempered a system that is CLEAR and PRECISE for both dog and handler. It is tremendously intuitive and dovetails smoothly with other techniques featured by Canine Training Systems®.
